Congressional Proceedings.

WASHINGTON, Aug. 18.—In the Senate this morning Quay gave formal notice of his intention to ask the Senate to adopt the order proposed by him on Saturday to commence voting on the Tariff bill on the 30th of August, and postpone till the next session all other legislative business except the classes of bills therein specified. The notice went over till to-morrow.

The Senate then proceeded to the consideration of the Deficiency bill.

Edmunds offered the following amendment to the Tariff bill, which was referred to the Committee on Finance: "That whenever the President of the United States shall be satisfied that a sugar producing country whence sugar is exported into the United States has abolished its duties or taxes on the importations of the principal agricultural products of the United States, he may by proclamation diminish or wholly remit the duties imposed by law on sugar or any grade of sugar produced in and exported directly from any such country into the United States so long as such products of the United States are admitted free of duty or tax into such country, and no longer."

Edmunds also gave notice of another amendment which he intended to propose, authorizing the President, whenever satisfied of any unjust discrimination made by any foreign country against any product of the United States, to make a proclamation excluding the products of that country.

HOUSE.

The Senate bill was passed authorizing the construction of a bridge across the Columbia river by the Oregon Railway Extension Company.

On motion of Cummings, the Senate bill was passed granting leave of absence to the per diem employees in the Customs service.

Dalzell called up the Mississippi election contested case of Chalmers against Morgan. The majority report finds in favor of Morgan, the sitting member. The majority resolution declaring Morgan entitled to a seat was agreed to without a division.

Sweeney of Iowa presented and the House agreed to the conference report on the Senate bill to reorganize and re-establish the customs collection district of Puget Sound.

An English Opinion.

LONDON, Aug. 18.—The News says the Behring Sea "blue book" shows the pitiful sophistries of Blaine in trying to justify the high-handed proceedings of the American cruisers, and further says that "America's claim is repugnant to common sense, and only needs to be stated to defeat itself."

A Swimming Feat.

LONDON, Aug. 18.—Davy Dalton, an American boy, accomplished the feat of swimming the English channel from Grimsby to Folkestone on his back in 23 1/2 hours. He finished strong. A boat acted as pilot to the swimmer.

Parliament Prorogued.

By Cable and Associated Press.]
LONDON, Aug. 18.—Parliament was prorogued to-day. The Queen's speech stated that negotiations have been entered into to amicably adjust the international disputes of African possessions; that an agreement has already been reached recognizing a British protectorate over Madagascar. That an offer had been made to the United States to submit the Behring Sea question to arbitration. Controversies have arisen between her subjects in Newfoundland and the French fishermen respecting the true interpretation of the rights of France by the treaty of Utrecht and subsequent agreements, and an adjustment of these is occupying the anxious attention of the Government.

How they Were Attired.

By Cable and Associated Press.]
ST. PETERSBURG, Aug. 18.—When the Emperor of Germany arrived at Narva last evening, he was attired in the uniform of a Viborg regiment, and wore the decoration of the Russian Order of St. Andrew. The Czar was in the uniform of the Alexander regiment, and on his breast was the decoration of the German Order of the Black Eagle.

SATURDAY'S PRIMARY.

The Vote Cast for Delegates to the State Convention.

The following is the vote cast at Saturday's primary election, as far as heard from, for delegates to the State Convention. The returns are not yet in from Verdi. R. H. Kinney received the highest number of votes cast, hence we put him at the head of the list. The election passed off quietly, with no great contest. Only about half the Republican vote in the town was polled:

McNeill, J. Luke, L. D. Piazza, J. A. Pothoff, L. Frank Sweeney, Grand Master of the Brotherhood of Railway Trainmen, and Sargent says the assemblage is the result of a telegraphic request from Powderly for a meeting. The precise object of the gathering is not yet known.

ALBANY, Aug. 18.—Fifteen Pinkerton men are under the care of surgeons, and five citizens are so badly wounded that there are fears for their recovery. Three of the Pinkerton men were arrested, all being the outcome of the conflicts yesterday between the strikers and Pinkerton's forces. James Patton, one of the latter, was assaulted while patrolling the track, and fired into a crowd, wounding a boy. Patton was severely handled. During the day the Pinkerton men several times fired recklessly into the mob, and but for the efforts of the regular police they would have been mobbed.

There has been no trouble at the Vancouver street crossing up to 2 P. M. A number of trains have passed through the city, but the police say that not a stone was thrown, or a shot fired.

A meeting of the Brotherhood of Firemen in this city has been called for 3 o'clock this afternoon at East Albany.

The New York Central Strike.

NEW YORK, Aug. 18.—The Executive Committee of the Knights of Labor, headed by Powderly, presented the result of their consideration of the strike on the New York Central to Vice-President Webb this morning. It was in the shape of a formal communication, which Webb said he would read carefully and return an answer this afternoon. There is no material change in the condition of affairs.

Webb has changed his mind in view of Powderly's conference in Buffalo, and will not reply to the demands of the Knights of Labor Board till after he hears from Powderly. It is surmised that a compromise is in progress. It now appears that Powderly was not with the rest of the Board when a formal demand was made on Webb this morning. He and Secretary Hayes left for Buffalo last night.

BUFFALO, Aug. 18.—The strike remains unchanged. The switchmen are still firm, and not a freight train has moved. The passenger trains are running on time and no disturbance is anticipated.

Lee, representing the Knights of Labor of this city, sent the following mysterious cipher dispatch to the New England Protective Railway Union to-day: "Whatever or more, be in readiness." It is understood this is the prelude to a general strike, and may come at any hour.

An important conference is in session here. Those taking part in it are Powderly, Grand Master of the Knights of Labor; F. P. Sargent, Grand Master of the Brotherhood of Locomotive Firemen and President of the Supreme Council of Railroad Employees; G. W. Howard, Grand Master of the Brotherhood of Railroad Conductors; S. E. Wilkinson, Grand Master of the Brotherhood of Railway Trainmen, and Frank Sweeney, Grand Master of the Switchmen's Mutual Aid Association. Sargent says the assemblage is the result of a telegraphic request from Powderly for a meeting. The precise object of the gathering is not yet known.

After the conference was ended the members of it declined to talk, except to say they were going to New York. Rumor has it that they will consult Webb.

Four People Drowned.

SAN FRANCISCO, Aug. 18.—News was received here last night from San Mateo, of the drowning of four people in Crystal Lake near that town, which resulted from the capsizing of a sail boat containing a pleasure party of four. The names of the drowned are Albert Lawrence, local Superintendent of the upper reservoir of the Spring Valley water works, Philip Quinn, a well known carpenter and builder of San Mateo, Miss McNamara, of San Mateo, and Miss Lizzie Earl of this city. The party started across the lake. The wind was blowing strong, and in attempting to tack, Lawrence, who was in charge of the craft was unable to unfasten the sheets and a sudden squall of wind capsized the boat. None of the party were able to swim.

Created Surprise.

MONTREAL, Aug. 18.—The Dominion Cartridge Company has received from the American Transportation Company a copy of a letter from the Treasury Department at Washington recommending them not to accept for shipment to Mexico a consignment of cartridges, as by the time the goods are ready the bonding privileges which Canada has enjoyed would be abrogated. The letter was laid before the Minister of Customs, who will bring it before a Cabinet meeting. This is the first definite statement that has been made of the intentions of the American Government, and it has created considerable surprise here.

His Terms of Peace.

CITY OF MEXICO, Aug. 18.—A dispatch from Guatemala says: President Barillas yesterday received the members of the diplomatic corps, who called to ascertain his terms of peace. He responded by saying his only terms were the retirement of Ezeta from the Government of Salvador and a re-establishment of the State affairs existing prior to the death of Menendes, and that Salvador treat Honduras and Guatemala as allies and not foster a rebellion against either Government.

The local purchases at the mints from the 13th to the 16th inclusive amount to \$2,177 ounces. The price of silver in London to-day was 58 pence.

5 O'CLOCK EDITION.

Not the Board of Trade.

The Board of Trade, or, perhaps, more accurately speaking, eight or ten members of it, seem to have organized a party which they style the "N.W. Development," and asked F. G. Newlands, Esq., if he would be a candidate for Governor or member of Congress.

As will be observed, Mr. Newlands has been the champion of the present incumbent, the Governor, and his own affiliation with the Republican party. Why the fact that he was recently a dyed-in-the-wool Democrat, and is not yet, as he admits, in perfect accord with the Republicans, should deter him from becoming the standard bearer of the new party is a mystery. Surly, if Newlands, who has been so strongly Republican as Bragg, so strongly Democratic as Baker, so strongly independent as Lincoln, and so strongly independent as Lincoln, should take courage and the new party, and proclaim New Development principles, which we hope include the free course of a river, from every swamp in the State.

But what effect will the N.W. Development organization have on the old parties? The Democrats have become particularly concerned by the move of W. B. Ker, Esq., but the Republicans have come to weep and also will over the defection in their ranks. [Silver State.]

The Silver State is in error when it says "the Board of Trade, or, perhaps, more accurately speaking, eight or ten members of it" addressed a letter to Mr. Newlands on the subject of his candidacy for office. Of the men who signed the letter six are members of the Board of Trade and thirteen are not, and never were. The men who signed the letter in question fully recognize the necessity of doing something for Nevada. They realize the necessity of electing a man to the gubernatorial chair who will have a well defined policy, and work up to it, in building up the commonwealth by a system of irrigation that will reclaim our arid wastes, and settle the lands with prosperous and happy homes. They realize the necessity of sending a man to Congress who is fitted by education and experience to show the Government the advantage of spending some of the surplus in developing Nevada, and with push, energy and brains enough to make a winning fight. Such a man they believe Francis G. Newlands to be; hence the letter. Of all the men with a sack full of Nevada money Mr. Newlands is the first to show that he takes any interest whatever in doing anything to develop Nevada's agricultural possibilities. He has invested something like \$100,000 in reservoirs and reservoir sites for the storage of water in Western Nevada, and he is by no means through with the good work yet. He has used his tongue and pen most vigorously to induce other Nevada capitalists to put up something for the common cause. True, his efforts in this direction have not thus far been what might be called a "howling success," but there is no telling what a day may bring forth. Mr. Newlands is not a man easily discouraged or given to undertaking anything that he can not make a success, and help or no help, will put the State in a position to make capital wonder that the splendid advantages offered by Nevada have so long been overlooked.

The recent trouble between the citizens of East street and the N.-C.-O. Railroad has been the source of litigation and considerable feeling. This is all caused by the failure to start right and the want of complying with the requirements of the law on the part of the old N. & C. Company.

That a railroad is a certain annoyance to those who reside on a street through which it passes there can be no question; that the proximity of a railroad to property may depreciate or increase its value is also an admitted fact; that the citizens of East street are more adversely affected by the track of the N.-C.-O. Railroad than other citizens of the town will not be denied; that there should be a connection between that road and the Central Pacific all must admit. If there be a conflict between the property owners along East street and the owners of the road running north, that conflict should be amicably adjusted.

While the Gazette does not attempt to dictate the policy of either side, nor to throw stones at any one interested, it believes by discreet action and mutual concessions the citizens' rights can be secured and the railroad gain friends. Every effort which looks toward bringing about an equitable adjustment of what may be considered the rights of the parties should be made before the Courts are again appealed to. This may take a little time, and that time should be granted. If this policy is pursued the fight between the warring elements will soon end.

DEED IN AN INSANE ASYLUM.
Mrs. Caroline Atherton Mason, who died in the Insane Asylum at Worcester, Mass., a short time ago, was the author of the once popular song, "Do They Miss Me at Home?" The composition gave her fame, but no money. It was written immediately after her marriage—when, as she wrote to a friend, "her heart was aching for home." At the time of her death she was sixty-seven.

GAMIN AND LAWYER.
How a Chicago Attorney Acquired a Stock of Penny Papers.
"Do you know Attorney Van Buren?" asked one legal light of another the other evening, within hearing of a Chicago Mail reporter. "Yes? Well Van got it worked on him pretty nicely the other day. He's pretty smooth, you know; don't trust anybody unless he knows 'em, and watches them even he if he does."

"Well, Van came out of the county building yesterday about five o'clock and started down the street. A little rat of a newsboy ran across, held out a penny paper and vociferated: 'Paper, sir? Evening paper, five o'clock edition, all about the world's fair,' as he ran along beside the attorney."

"Van took a paper, dove down into his trousers for a penny; couldn't find one, and handed the boy a dime. 'I ain't got no change, mister. You just wait here an' I'll get it for you in a second,' said the kid, and started off."

"Here, you!" yelled Van. "Come here. If you're going after the change you just give me your papers till you come back. I'm onto your curves, my lad. You can't do me."

"The kid grinned, vowed innocence of any intention to defraud, and instantly forked over the bundle of papers. 'All right, sir; you jest hold 'em till I come back,' he said, and skipped across the street."

"Van read his paper, absently holding the others under his arm, for about ten minutes. Then he looked around for the boy, but he hadn't returned. It gradually dawned on Van's mind that possibly the boy wasn't coming back, and he at once began investigating his securities. There were only eight papers in the lot besides the one he was reading. Van cast the eight wrathfully into the gutter and walked away with a muttered expression which didn't reflect much credit on a lawyer who allowed himself to be done up so beautifully and perfectly by a gamin of the streets, even while he was taking unusual precautions to avoid that very end. They say Van is a perfect terror about the sufficiency of bonds in his practice since the event occurred."

BELLIGERENT OWLS.
They Run Things to Suit Themselves on a New Jersey Farm.

A plague of owls has for two weeks disturbed the peace of John Mayor's home in the outskirts of Plainfield, N. J., according to a special in the Globe-Democrat. The first appearance of the owls was noticed by one of Mr. Mayor's sons, who in romping about the barn discovered a nest of the young birds. There were no larger owls in sight, and the boy made one of the owls captive and carried it to the house. His mother compelled him to restore it to its nest. He had no sooner placed it with the others than one of the older birds appeared and attacked him furiously, beating him in the face with its wings and scratching him with its claws and bill. Shielding himself with his arms, the lad ran away. The owl left him at the barn door. That afternoon one of the young ladies of the family had occasion to visit the carriage house, where a great owl flew down and alighted on her back. She shook it off with difficulty, and in the struggle had her garments torn.

Since then owls have taken complete possession of the buildings and their surroundings. Scores of the birds, which are of the day-owl species, have followed the first comers and have made their nests in the barn. Several have been killed, but this seems only to make the others more fierce. Even the men dare not venture near the nesting places without masks or other protection. The novel defense of umbrellas has been at last adopted, and now when any member of the Mayor family visits the owls' castle he holds a parachute over his head. Already three umbrellas have been ruined by the birds dashing against them in vain endeavors to reach the faces of the carriers. The Mayor family are in a state of mind. They don't want to move out, but they can not dispossess their belligerent tenants.

A GRIST FOR THE GRANGER.

HENAGHAN grass or millet is the best crop to sow in the poultry yard.

It is important that the corn crib be cleaned out and fumigated so as to destroy insects.

HAY should be stacked only after it is well cured and dry. Wet hay will either heat or deteriorate.

A HEN pays in proportion to the number of eggs she produces; therefore it is an item to feed so as to secure plenty of eggs.

KEEP alfalfa closely cropped if the weeds are growing among it. In this manner the weeds will be killed, while the alfalfa becomes stronger.

It is said that rags saturated with kerosene and fastened into a split stick that has been driven into the squash, melon and cucumber hills will keep bugs off.

On all fields where the mowers are to be used the advantage of the land having been previously rolled will be noticeable. Fields that have been rolled can be mowed easier, and the work done more completely than where the land is rough.

Make No Mistake

If you decide, from what you have heard of its cures or read of its merits, that you will take Hood's Sarsaparilla, do not be induced to buy something else which may be claimed to be "about the same" or "just as good." Remember that the sole reason for efforts to get you to purchase some substitute is that more profit may be made. Firmly resist all inducements, and insist upon having just what you called for, Hood's Sarsaparilla. Then you will not be experimenting with a new article, for Hood's Sarsaparilla is Tried and True.

"In one store the clerk tried to induce me to buy their own instead of Hood's Sarsaparilla. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was, I had taken it, was perfectly satisfied with it, and did not want any other." Mrs. ELLA A. GORR, 41 Terrace Street, Boston, Mass.

We Are All Taking It.

Reminiscence of the Johnstown Flood.

Rev. H. L. Chapman, pastor of the M. E. Church, Johnstown, Pa., says: "Soon after the great flood, at a time when diarrhoea was quite prevalent I received a box of six dozen Chamberlain's Colic, Cholera and Diarrhoea Remedy sent me by the proprietors, at the suggestion of Hon. Wesley Redhead of Des Moines. As soon as it became known that I had the medicine for free distribution there began a great run on it, which continued until it was all gone. Every one, so far as I heard from them, testified to its virtues declaring it the best medicine for the purpose they had ever used. Those who got it shared it around with their neighbors so that I am confident your generosity in sending it was productive of great good. We used some of it ourselves and found it not only an excellent medicine for diarrhoea but for all kinds of pain and uneasiness in the stomach and bowels. It has been regarded as the best medicine known here for the diseases it is recommended for. In view of your sending such a large quantity for free distribution among poor people, I think you are entitled to this testimonial in the favor. For sale by Shoemaker & Co.

Speech.
The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much heartiness is displayed by those who have recovered from their restoration to health to the use of the Great Alterative and Tonic. If you are troubled with any disease of the Kidneys or Liver or Stomach, of long or short standing, you will surely find relief by the use of F. C. W. Pinner's drug store.

Everything goes Wrong
In the bodily mechanism when the liver gets out of order. Constipation, dyspepsia, contamination of the blood, imperfect assimilation are certain to ensue. But it is easy to prevent these consequences, and remove their cause, by the use of Hostetter's Stomach Bitters, which stimulates the biliary organs and regulates the action of the liver, and thus secures the purity of the blood and the regularity of the bowels. The liver complaint, sound digestion and a regular habit of body are inseparable. Also secured by the use of this celebrated restorative of health, which imparts a degree of vigor to the body which is the best guarantee of safety from malarial epidemics. Nervous weakness and over-tension are relieved by it, and it improves both appetite and sleep.

The Pulpit and the Stage
Rev. F. M. Shroat, pastor United Brethren Church, Blue Mound, Kansas, says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 26 pounds in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption beats 'em all, and cures when everything else fails. The greatest kindness I can do my many thousands of friends is to use them to try it. Free trial bottles at W. Pinner's drug store. Regular sizes 50c and \$1."

Soc. Druggists or mail; treatise free. Dr. Bosanko, Hiqua, O. Sold by S. J. Hodgkinson.

Families not already supplied should lose no time in procuring a bottle of Chamberlain's Colic Cholera and Diarrhoea Remedy. It is the only remedy that can always be depended upon for bowel complaint in all its forms. 25 and 50 cent bottles for sale by Shoemaker & Co.

AN INYO COUNTY FORGER.

Who Is Probably in Hock Before This.

The Inyo county, Cal., Independent, of the 15th inst. says: Last Monday William Alcorn offered a check to Mr. Barnes of the Lake View Hotel at Keeler in payment for a small bill. The check appeared to be made by Frank Fitzgerald and was for \$93. Mr. Fitzgerald's checks are received as coin anywhere in the county. This one was readily accepted by Mr. Barnes, who retained the amount due by Alcorn and paid him the balance in coin. A similar check for \$72 was offered by Alcorn to Mike Anton, and a third for \$25 was offered to John Morton. Both of these were as readily accepted as the first and the coin was paid by these parties to Alcorn.

Mr. J. E. Reynolds, agent for Mr. Fitzgerald, was in Lone Pine on Monday. On Tuesday afternoon he was in Keeler on his way back to Lookout. The checks were shown him and he at once pronounced them forgeries.

Alcorn had left Keeler on the north-bound train the same morning. Mr. Barnes telegraphed Sheriff Eldred at Independence, but before it was possible to arrest Alcorn the train had crossed the State line and was in Nevada. The Sheriff and District Attorney Gill had the necessary papers prepared, Mr. Reynolds appeared before C. Mulholland, Justice of the Peace, and made affidavit to the complaint, a warrant was issued for Alcorn's arrest, and the whole was telegraphed to Sacramento, with a request that a requisition be made upon the Governor of Nevada for the surrender of Alcorn.

In the meantime Mr. Reynolds had telegraphed to Mr. Fitzgerald, who is at Los Angeles, and the latter replied to spare no expense to secure the conviction of the forger.

It was ascertained by telegram that Alcorn had gone to Candelaria, and Sheriff Eldred wired the Sheriff at Hawthorne, Nevada, to hold him. Sheriff Eldred will go to Hawthorne tomorrow, and doubtless by the time he gets there he will have the necessary authority from the Governor of Nevada to bring back his man.

A Card from Mr. Fitch.

EDITOR GAZETTE: The Reno correspondent of the Virginia Enterprise in his zeal to make a point for his employer here, telegraphed to the Enterprise a deliberate lie. I do not know the name of the correspondent—he knows mine, and where to find me. He telegraphed as follows: "Reno polled 249 votes, about 40 for Fitch."

I caused to be prepared and printed last week a ticket of eighteen names, to be voted for delegates to the State Convention. Of these seven were named at caucuses held in the outside precincts, and of the other eleven, eight had assured me personally of their intention to support me for the nomination for Congress. I had no information as to the position of the others. Subsequently another ticket was made up which was understood to be in the interest of Mr. Powning for Governor and Mr. Newlands for Congress. Of the eighteen names upon the ticket, eleven were upon the ticket previously made up by me. There was no question of a "Fitch" or "anti-Fitch" ticket at the polls. I proposed to Mr. Newlands on Friday that there should be a separate ballot box at which the voters should express their choice for Member of Congress, and that we should abide the result. This offer he did not accept.

The "combination" ticket was elected. Of the eighteen men chosen, four have expressed themselves to me as in favor of my nomination, and six have expressed themselves to the same effect to others. If I shall be a candidate before the State Convention, I have ever reason to expect the support of a majority of the Washoe county delegation, though I do not now expect to be a candidate. If the gentleman in whose supposed interest the lying telegram was sent is wise he will muzzle his injudicious dog.

THOMAS FITCH.

Would Die Before He Would "Mat."

Christian Keebler, a printer, who went out with the striking printers on the Los Angeles Herald last week, drowned himself at Santa Monica. He had three children in San Francisco and had just secured work when the strike began. He was despondent and was heard to say he would kill himself before he would "rat."

Dangerously Injured.

Edward W. Bradshaw, a cowboy, near Holbrook, A. T., was thrown from his horse, when his foot caught in the lariat, and he was dragged over bushes and thrown suddenly around a tree, with such force as to break the rope. The man was seriously injured internally, besides receiving a skull fracture.

Independence Lake.

This resort appears to be the favorite his season for trout fishing. The hotel is again opened and newly furnished in all its departments, together with new and safe boats and moderate hotel bills. For quiet comfort and health, good sport in hunting and fishing and beautiful location, there is no place in the mountains more desirable.

The Town Saved.

The town of Roy, at the foot of the Cascades in a dense forest, thirty miles from Tacoma, was surrounded by a forest fire last Friday and several houses were burned. Fire engines from Tacoma were sent to the scene and saved the town.

Japanese Shortland.

The proceedings of the Japanese Parliament are reported verbatim by means of a stenographic system originating in Japan. The characters are written in perpendicular rows from right to left.

My New Quarters.

My patrons are hereby notified that I have moved my cigar and tobacco business from the Coates building to my new store next to John Sunderland's clothing department, where I will be pleased to see all in want of my line of goods.

OWENS RIVER COUNTRY.

Rich Ore—A Chinaman Drowned Who Was a Good Swimmer.

Frank Sorba struck a body of rich ore recently in a claim about a mile east from the Defiance mine near Darwin. The ore goes about 75 per cent lead and from 170 to 210 ounces of silver per ton. He has already shipped two carloads of the ore, and the vein is large and appears to be extensive. Sorba has enough in sight to realize him a handsome sum.

On the 10th inst. several men who are employed on the Eastside canal went bathing in the river near the camp. The Chinese cook was among them. Soon after entering the river the Chinaman was caught in an eddy and sank. He came to the surface very soon, but sank again and was seen no more. Deceased was a good swimmer, but the eddies in Owens river are very dangerous. A reward of \$40 is offered for the recovery of the body by Fat Foy, a well-known Chinaman of Independence.

THE MASONS.

Members From Carson and Virginia Pay a Fraternal Visit.

The Masons had a jollification last Saturday evening, the occasion being the "raising" of R. H. Lindsay. Ten or twelve came down from Virginia, and among the number was Grand Master J. W. Eckley, besides twelve or fifteen from Carson Lodge. After the labors of the evening were over the visitors and members repaired to the banquet room, where a supper had been prepared by the ladies of the Eastern Star, to which all did ample justice.

Origin of Pin Money.

The Dry Goods Chronicle says: Pin money is a lady's allowance of money for her own personal expenditure. Long after the invention of pins in the fourteenth century the maker was allowed to sell them in open shop only on the 1st and 2d of January. It was then that the court ladies and city dames flocked to the depots to buy them, having been first provided with the pin money by their husbands. When the ladies came cheap and common, the ladies spent their allowances on other fancies, but the term pin money remained in vogue.

F. & A. M.

The members of Reno Lodge No. 13, F. & A. M., are requested to meet at their hall to-morrow (Tuesday) at 1 p. m. sharp to attend the funeral of our late Brother, J. H. Hussey, by order of the W. M. S. H. AMBSON, Secretary.

Cost of Central Park.

The Central Park cost the city of New York about \$6,000,000 for the land and about \$13,000,000 for construction and maintenance. It is now about forty years old.

Forty-five Years Bondage.

GEORGE: For forty-five years I have been afflicted with blood poison, liver, rheumatic difficulties. Part of the time confined to my bed. My blood was badly diseased. Six bottles of Hibbard's Rheumatic Syrup did me more good than all the other medicines I have taken. My friends have used it and in every case it has proved a wonderful remedy. I have known of some wonderful cures of rheumatism and neuralgia.

Mrs. M. at St. Louis, Mitchellville, Mo. Hibbard's Rheumatic Syrup and plaster are remedies of great merit. I believe they have no equal in the cure of rheumatism and blood diseases.

Dr. H. REICHHARD, Druggist, Mitchellville, Mo.

The Spring is the time to take Hibbard's Rheumatic Syrup for the blood. For sale by all druggists. Prepared only by the California Wright Medicine Company, Detroit, Mich.

Spring Fever.

At this season of the year the most vigorous and healthy people often have a feeling of weariness tired and worn out, without ambition to do anything, and many break out in pimples and blotches. What you require is a mild tonic medicine that will act gently on the liver and blood, and for this nothing equals Dr. Gena's Improved Liver Pills. They give new activity to the liver, purify the blood and by their mild tonic action, new vitality and strength to the entire system. Sold at 25 cents a box by S. J. Hodgkinson.

J. K. Moore of Stockton, Cal., says: "I am an Abolitionist and have been for many years and I am never without it. The original and genuine Abolition Pills are the best. The signature of Dr. F. F. Fitch."

A Boom in Fruit Lands.

San Bernardino is feeling a boom in fruit land. Nearly five thousand acres were sold in small tracts in Alamosa during the past two weeks, and an eastern company has just purchased 21,000 acres, which are to be watered by the Bear Valley Reservoir and sold to settlers.

A Fast Train.

The fastest regular train in the United States is that on the Baltimore & Ohio, between Washington and Baltimore. The rate of speed is fifty-three and one-third miles an hour.

A LOST ADDRESS.

A Trinidad Lady Writes to San Francisco for It.

Mrs. Harriet McNamara of 319 State Street, Trinidad, Colorado, while visiting in St. Louis last summer, did not suffer with her usual rich head and indigestion. But upon her return to Trinidad her old troubles came upon her. It was not the St. Louis climate that did so much for her. The secret is told in the following letter, received by Thomas Price & Son, the well-known druggists of 524 Sacramento Street, San Francisco.

"Three months since I was visiting in St. Louis, and obtained two bottles of Joy's Vegetable Sarsaparilla. It was of great relief to me in my headaches and indigestion. Since my return to my home in Trinidad I feel the need of it, and as I have lost the address I write to you and will kindly forward this letter to the proper number in San Francisco, and have me sent a few more bottles of this valuable vegetable compound."

People having used Joy's Vegetable Sarsaparilla once send hundreds of miles to get it again, as in the above instance.
